OUR STRENGTH

We undertake and execute projects that involve the full spectrum of electromechanical work through the implementation of comprehensive and integrated quality system. They not only satisfy, but they also exceed customer expectations.

The Design Section has a state-of-the-art system with the latest in technology. An interconnected network allows project management, material control and other processes and functions to be monitored by the concerned personnel throughout the branches of UNIMECH SYSTEM INDIA PVT LTD.

VISION & QUALITY WORK

To ensure the Quality of Work, we do not engage Sub-Contractors except for menial jobs. We are getting the work carried out by our own Workmen under direct supervision of Site Engineers and guidance of Project Managers. Our dedicated & well experienced Engineers will observe & oversee Safety & Quality aspects during entire execution of project works. We source all materials from approved vendors to ensure the Quality of Materials and stands at par with International Policies.

UNIMECH QUALITY POLICY

UNIMECH QHSE POLICY

UNIMECH PROJECT MANAGEMENT

HVAC

HVAC Systems & Refrigeration Systems
Chilled Water Systems
Ducted Split Systems
VRV System
Package Units
HVAC Controls and Monitoring Systems
Ventilation – Fresh Air & Extract Systems
Clean room & All type of special ventilation

FIRE FIGHTING

Fire Hose Systems
Fire Detection Systems
Sprinkler systems
Fire Suppression Systems

FIRE SAFETY & SECURITY

Fire Detection Systems
Closed Circuit TV (CCTV)
Access Control System
Public Address System
Voice / Data Structured Cable.

PLUMBING

Cold Water Distribution
Hot Water Distribution
Water Features and Irrigation Systems
Drainage – Soil/Waste and Vent Systems
Storm Water Drainage
Sewage Treatment Systems
Waste Water Treatment Systems

ELECTRICAL

Residential / Commercial / Industrial
Building Management Systems
Earthing and Lightning Systems
Public Address Systems
Central / Satellite TV systems / IPTV Systems
Interior & Exterior Lighting

ELEVATORS & ESCALATORS

Installation of Escalators & Elevators.
Upgrading to the latest systems
